

PRESS RELEASE

Manchester, United Kingdom, Dec. 22, 2008

AlfaSolid of Greece become 100th Reseller to Join the DriveWorks Reseller Channel

DriveWorks Ltd the developers of DriveWorksXpress and DriveWorks, has today announced that AlfaSolid based in Athens, Greece, has signed an agreement to become a DriveWorks Reseller. AlfaSolid is the 100th Reseller to sign up to sell and support DriveWorks across the world.

"We are delighted to welcome AlfaSolid to the DriveWorks Reseller Community as our 100th Reseller," said Maria Sarkar, Co-Founder of DriveWorks. "With DriveWorksXpress now incorporated into every new seat of SolidWorks we are seeing great interest in Design Automation form around the world. SolidWorks Engineers now have Design Automation at their finger tips."

DriveWorks is the Easy-to-Use Rules Based Design Automation tool for companies that design and manufacture custom products. It is applicable for any company that manufactures products or components that are 'the same but different'. DriveWorks was first launched in the UK in 2001. AlfaSolid join an active DriveWorks Community of resellers spread across the US, Europe, Australasia and Asia Pacific. Manufacturing Companies in Greece will now be able to benefit from this powerful yet easy to use software.

"We realised that everybody has to design the same models based on the same (physical) rules. We have therefore found DriveWorks to be an amazing tool for the majority of CAD users. Since engineers spend a lot of time on re-design, why not spend a little more time automating the designs? It is essential that we provide this functionality to our customers along with SolidWorks. The fact that DriveWorks is easy to use, saves a lot of time for customers." Antonis Zannis - AlphaSolid - SolidWorks Solutions Consultant

Using DriveWorks is Easy

Capture items that can change eg dimensions, features, names, documents and data. Assign rules and create custom forms. Fill out the forms, to automatically and accurately create 3D Models, 2D Drawings and documentation (such as quotes, BOM's and Cutting lists) for your new variations time after time.

About DriveWorks® and DriveWorks Ltd

DriveWorks is the Easy-to-Use Design Automation Choice for SolidWorks. DriveWorks allows users to automate repetitive tasks in their design process and streamline the generation of design and manufacturing documents and data.

DriveWorks is affordable, easy to use and fast to implement. The software is sold worldwide and supported locally by DriveWorks Certified Resellers. DriveWorks is used by companies across many different markets from trailers to conveyors, furniture to machinery, mechanical seals to pressure vessels, windows and doors. DriveWorks is a SolidWorks Certified Gold Partner. Visit www.driveworks.co.uk

DriveWorksXpress has been included in EVERY seat of SolidWorks since 2008. It is available in 13 languages worldwide through SolidWorks authorized resellers. www.driveworksxpress.com

About AlfaSolid

AlfaSolid is a new flexible company that consists of mechanical engineers and is devoted on providing solutions to the Greek Industry with the contribution of SolidWorks and its partners. Providing high quality training and technical support is the most important consideration for AlfaSolid, keeping the satisfaction of Greek cad users on high level.

AlfaSolid, established in 2006, is the authorised SolidWorks Reseller all over Greece and Cyprus. Design and engineering services, rapid prototyping and reverse engineering are also provided by MSc's and PhD's engineers.

SolidWorks has been successfully implemented in over 200 companies and the most important universities of Greece and Cyprus.
