Eligibility for Student Design Kit License; Distinctions from Commercial Version
You acknowledge that Student Design Kit Licenses are provided to purchasers of instructional products, such as textbooks, and therefore acquired at no incremental cost to you, or provided to full-time students and faculty at accredited academic institutions at no cost. As a consequence, Student Design Kit Licenses contain use restrictions that are not found in commercial or other educational licenses of the Software. Only those who use the Software and the files created by the Software for their personal educational purposes are eligible to receive a Student Design Kit License, *e.g.*, no use for independent consulting work or commercial purposes whatsoever.

Please note the following features in the Student Design Kit version of the product:
— A Student Design Kit License for the Software expires after the number of days specified on the package or download page (60, 150 or 365), or November 30, 2012, whichever occurs first; does not include Subscription Service; and is not upgradable.
— The Software contains on-screen and printing features that identify the software and the related files as the "SolidWorks Student Design Kit," making it unsuitable for use in a commercial environment. In addition, files created by the Software may be prevented from being read by commercial versions of DS SolidWorks software.
— The packaging for the Student Design Kit uses the English language only; however, the Software has foreign-language versions and may be installed using any one of such language versions.

1. **GRANT OF LICENSE.** DS SolidWorks grants to you a nonexclusive, nontransferable license to use the Software and the printed and/or electronic user documentation (the "Documentation") accompanying the Software in accordance with this Agreement (the "License"). You may use one copy of the Software on any single computer for the number of days specified on the package beginning on the date of initial installation or until November 30, 2012, if the date of initial installation occurred less than the number of days specified on the package prior to November 30, 2012, provided that you comply with the terms of this License. After the 60-, 150- or 365-day period or November 30, 2012, whichever occurs first, the Software will no longer function. The Software is licensed to you for EDUCATIONAL USE ONLY and NOT FOR COMMERCIAL USE. You understand that your right to use the Software will automatically terminate if you fail to comply with any of the terms of this License.

   When working with the Adobe PDF software, you may embed copies of the font software into your electronic documents for the purpose of printing, viewing, and editing the document. If the font software you are embedding is identified as "licensed for editable embedding" on Adobe's website at http://www.adobe.com/type/browser/legal/embeddingeula.html, you may also embed copies of that font software for the additional purpose of editing your electronic documents. No other embedding rights are implied or permitted under this License.

You may not use the Software, the files generated by the Software, or Documentation for any commercial purpose nor may you enable others to use the files generated by the Software for any

In addition, DS SolidWorks may terminate the License immediately upon written notice to you for justified cause, including, without limitation, breach of any provision of Article 2 or 3 of this Agreement. Upon the termination of the License for any such reason, you will promptly return to DS SolidWorks or destroy all copies of the Software and Documentation covered by the License as instructed by DS SolidWorks. The provisions of Articles 2, 3, 4, 5, 6, 7 and 9 of this Agreement shall survive any termination of this Agreement.
