

**INSPECTION
XPERT**

data sheet

from drawing to
quality inspection sheet...

**In Minutes...
Not Hours!**

benefits

	Dramatically Lower Inspection Costs	Improve Inspection Accuracy	Achieve Quality Standard Compliance	Reduce Wasted Labor	Easily Integrate Into Existing Process
Quickly and accurately generates quality inspection sheets from your SolidWorks drawings for first article inspection and in-process inspection.					
Simultaneously balloons your SolidWorks drawings with reference designators to uniquely identify each dimension, note and GTOL on your inspection sheet.					
Incorporates single sampling plans from quality sampling standards such as ANSI Z1.4 and Mil-Std-105E into your quality inspection sheets.					
Export your inspection sheets to industry standard formats such as AS9102 Form 3.					
Easily customize your inspection sheet templates to support company-specific formats.
