## SOLIDWORKS VISUALIZE

For every SOLIDWORKS Professional and Premium license on active subscription, SOLIDWORKS Visualize Standard is included. SOLIDWORKS Visualize is the fastest and easiest way to create photo-quality images for anyone who needs to take “photos” of their 3D data. This standalone Visualize seat can be given to anyone in your company and does not require SOLIDWORKS CAD to be installed on the same machine. This means that 3D modeling and 3D visualization can happen in parallel.

## SOLIDWORKS CAM

For every SOLIDWORKS Standard, Professional and Premium license on active subscription, SOLIDWORKS CAM Standard is included. SOLIDWORKS CAM Standard is the fastest and easiest way to create 2.5 axis toolpaths on part files (Milling, Waterjet, Plasma, Laser and Router). SOLIDWORKS CAM Standard leverages a rules database to streamline your programming process and capture your Model-Based Definition (MBD) tolerances to standardize your workflows.

## CERTIFICATION EXAMS

Enable users to validate their proficiency and demonstrate professional achievement through an industry-recognized certification program. Easily access certification exam preparation materials as well as Associate, Professional, and Expert level exams. Boost your employability and demonstrate your technical capabilities with digital badges that are included with some exams.
