The information and the software discussed in this document are subject to change without notice and are not commitments by Dassault Systemes SolidWorks Corporation (DS SolidWorks).

No material may be reproduced or transmitted in any form or by any means, electronically or manually, for any purpose without the express written permission of DS SolidWorks.

The software discussed in this document is furnished under a license and may be used or copied only in accordance with the terms of the license. All warranties given by DS SolidWorks as to the software and documentation are set forth in the license agreement, and nothing stated in, or implied by, this document or its contents shall be considered or deemed a modification or amendment of any terms, including warranties, in the license agreement.

For a full list of the patents, trademarks, and third-party software contained in this release, please go to the Legal Notices in the SOLIDWORKS documentation.

Restricted Rights

This clause applies to all acquisitions of Dassault Systèmes Offerings by or for the United States federal government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the federal government. The software, documentation and any other technical data provided hereunder is commercial in nature and developed solely at private expense. The Software is delivered as "Commercial Computer Software" as defined in DFARS 252.227-7014 (June 1995) or as a "Commercial Item" as defined in FAR 2.101(a) and as such is provided with only such rights as are provided in Dassault Systèmes standard commercial end user license agreement. Technical data is provided with limited rights only as provided in DFAR 252.227-7015 (Nov. 1995) or FAR 52.227-14 (June 1987), whichever is applicable. The terms and conditions of the Dassault Systèmes standard commercial end user license agreement shall pertain to the United States government's use and disclosure of this software, and shall supersede any conflicting contractual terms and conditions. If the DS standard commercial license fails to meet the United States government's needs or is inconsistent in any respect with United States Federal law, the United States government agrees to return this software, unused, to DS. The following additional statement applies only to acquisitions governed by DFARS Subpart 227.4 (October 1988): "Restricted Rights - use, duplication and disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(l)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252-227-7013 (Oct. 1988)."

In the event that you receive a request from any agency of the U.S. Government to provide Software with rights beyond those set forth above, you will notify DS SolidWorks of the scope of the request and DS SolidWorks will have five (5) business days to, in its sole discretion, accept or reject such request. Contractor/ Manufacturer: Dassault Systemes SolidWorks Corporation, 175 Wyman Street, Waltham, Massachusetts 02451 USA.

Lesson 1:
Basic Flange Features

What are Sheet Metal Parts? 8
Sheet Metal Methods 8
Unique Sheet Metal Items. 10
Flange Method 11
Base Flange/Tab 11
Sheet Metal Parameters 13
Sheet Metal Thickness and Bend Radius 14
Bend Allowance 15
K-Factor 16
Bend Allowance 16
Bend Deduction 16
Specifying the Bend Allowance 17

Auto Relief . . . 17
Editing Sheet Metal Parameters . . . 18
Sheet Metal Bend Features . . . 20
Flat-Pattern Feature . . . 20
Flatten and Exit Flatten . . . 21
Toggle Flat Display . . . 21
Additional Flange Features . . . 23
Edge Flanges . . . 23
Edge Flange Settings . . . 25
Editing the Flange Profile . . . 28
Flange Profile Relations . . . 28
Edge Flanges on Curved Edges . . . 30
Miter Flanges . . . 31
Miter Flange Settings . . . 32
Hem Feature . . . 33
Hem Settings . . . 34
Tab Features . . . 35
Cuts in Sheet Metal . . . 37
Summary of Flange Features . . . 41
Exercise 1: Sheet Metal Bracket . . . 43
Exercise 2: Flange Features . . . 44
Exercise 3: Edit Flange Profile . . . 50
Exercise 4: Sheet Metal Box . . . 54
Exercise 5: Assorted Framing Hangers . . . 57

Lesson 2: Working with the Flat Pattern

Working with the Flat Pattern . . . 60
Flat Pattern Settings . . . 60
Features for Manufacture . . . 63
Corner-Trim Feature . . . 63
Corner-Trim Settings . . . 64
Corners in the Formed State . . . 66
Closed Corner . . . 67
Closed Corner Settings . . . 68
Corner Relief . . . 72
Break Corner/Corner Trim . . . 73
Producing the Flat Pattern . . . 74
Sheet Metal Cut List Properties . . . 74
Accessing Cut List Properties . . . 76
Sheet Metal Drawings . . . 78
Flat Pattern Drawing Views . . . 78
Flat Pattern View Properties . . . 81
Cut List Properties as a Note . . . 82
Exporting the Flat Pattern . . . 83
Exercise 6: Flat Pattern Settings . . . 85
Exercise 7: Working with Corners . . . 91

Lesson 3: Standardizing Sheet Metal Designs

Standardizing Gauge Numbers and Bend Radii 100
Standardizing Bend Allowance. 100
Topics for Standardizing Parameters 100
Using Tables 101
Gauge Tables 101
Bend Tables 102
Bend Allowance 106
Editing the Gauge Table Selection 107
Gauge Table Training Files 107
Defining Table File Locations 107
Custom Sheet Metal Materials 111
Sheet Metal Templates 115
Sheet Metal Part Document Properties. 117
Other Part Template Settings 119
Sensors for Sheet Metal 119
Sheet Metal Drawing Document Properties 125
Sheet Metal Tables in Drawings 130
Adding a Cut List Table 130
Adding a Bend Table 132
Mapping DXF Output. 134
Options for Map File. 137
Exercise 8: Standardizing Sheet Metal Designs 140

Lesson 4: Additional Sheet Metal Techniques

Additional Sheet Metal Methods 142
Designing from the Flat 142
Sketched Bend Feature 142
Jog Feature 147
Adding Features in an Unfolded State 150
Unfold and Fold 150
Creating Cuts in the Flat Pattern. 153
Swept Flange. 153
Swept Flange Flat Pattern Options 155
Lofted Bends. 157
Bent Lofted Bends 157
Bent Bend Region Options 158
Formed Lofted Bends 161
Formed Bend Region Options 163
Lofted Bends in the Design Library 165
Exercise 9: Sheet Metal from Flat 166
Exercise 10: Jogs and Hems 169
Exercise 11: Fold & Unfold 176

Exercise 12: Conical Swept Flange 179
Exercise 13: Lofted Bends 181
Exercise 14: Using Symmetry 184
Manual Relief Cut 184
Sheet Metal Library Features 190

Lesson 5:
Converting to Sheet Metal

Sheet Metal Conversion 194
Insert Bends Method 194
Adding Rips 195
Insert Bends 196
Associated Features 198
Switching Between States 199
Making Changes 199
Welded Corner 203
Converting Cones and Cylinders 205
Convert to Sheet Metal 210
Convert to Sheet Metal Settings 212
Using Rip Sketches 216
Exercise 15: Working with Imported Geometry 218
Exercise 16: Unrolling a Cylinder 220
Exercise 17: Convert to Sheet Metal Practice 225
Exercise 18: Convert with Rips 226
Exercise 19: Sheet Metal Hopper 228

Lesson 6:
Multibody Sheet Metal Parts

Multibody Sheet Metal Parts 234
Tools to Create Multibody Sheet Metal Parts 235
Multibodies with Base Flange 235
Sheet Metal Parameters for Multibodies 238
Solid Body Feature History 238
Cut List Item Properties for Multibodies 239
Flat Pattern Drawing Views for Multibodies 240
Cut List Balloon Annotations 244
Exporting to DXF/DWGs with Multibodies 247
Convert with Multibodies 248
Hiding and Showing Bodies 250
Hide and Show 250
Hide/Show Bodies Command 250
Isolate 250
The Display Pane 251
Sensors for Multibody Parts 253

Using Split with Sheet Metal Parts 255
Patterning for Multibodies 257
Using Edge Flanges to Merge Bodies 260
Interfering Bodies 261
Combining Sheet Metal with Other Bodies 263
Assigning Materials to Bodies 264
Exercise 20: Toolbox 266
Exercise 21: Mirroring and Merging Bodies 280
Exercise 22: Sheet Metal Trailer 285

Lesson 7:
Forming Tools and Gussets

Sheet Metal Forming Tools 300
How They Work 300
Forming Tools in the Design Library 301
The Forming Tools Folder 301
Using an Existing Forming Tool 303
Form Tool Feature Settings 304
Form Tool Features in the Flat 306
Part Document Properties 306
Custom Forming Tools 308
Split Line 309
Forming Tool Feature 310
Legacy Behavior for Forming Tools 314
Form Tools in Drawings 314
Punch Tables and Punch ID 314
Sheet Metal Gusset 317
Exercise 23: Customizing a Forming Tool 320
Exercise 24: Sheet Metal Gusset 329

Lesson 8:
Additional Sheet Metal Functions

Additional Sheet Metal Functions 332
Cross-Breaks 332
Cross Break Settings 333
Cross Breaks in Drawings 334
Vent Features 336
Fill Pattern 338
Mirror Part 340
Tab and Slot 343
Process Plans 348
Exercise 25: Vent Cover 352

Appendix A: Sheet Metal Tables

Tables 358
The Sample Tables 358
Templates and Other Tables 358
Customizing Tables. 359
K-Factor Ratio Tables. 360
