

# THE SOLIDWORKS SOLUTION PARTNER PROGRAM

SOLIDWORKS CERTIFIED GOLD PRODUCTS 2026

# INTEGRATED. ASSOCIATIVE. CERTIFIED.

Get the power you need to finish the job right with SOLIDWORKS® Certified Partner Products. From Knowledge-Based Engineering (KBE) and mold design software solutions to Computer-Aided Manufacturing (CAM) tools, you'll have everything you need to get your products to market faster.

## Integrated

Data export just got easier. A lot easier. With single-window integration, all the tools you need work together using the same design data. This means you can work directly in the native SOLIDWORKS environment, instead of exporting models to a standalone product. And with our Certified Partner Products, you can take advantage of unique SOLIDWORKS capabilities like Configurations, PropertyManager, and the FeatureManager® design tree.

## Associative

Like SOLIDWORKS software, Certified Partner Products are fully associative. When you make design changes, they update data automatically or warn you that additional changes are necessary. So you can be sure that your data is always in sync. Always.

## Certified

Our certification team rigorously evaluates all of our Certified Partner Products, making sure they comply with SOLIDWORKS standards. You can rest assured that they will have the SOLIDWORKS look and feel and work with each new SOLIDWORKS release.

We are always evaluating new solutions for our Certified Partner Products.

Visit [www.solidworks.com/engineering-software-partners-products](http://www.solidworks.com/engineering-software-partners-products) for an up-to-date listing.

## CERTIFIED GOLD PRODUCTS – CAM

### BobCAD-CAM

BobCAM for SOLIDWORKS is a Gold-certified CAM add-in developed to efficiently generate NC code for up to 5-axis milling, lathe, MillTurn and Wire EDM machine tools. User-friendly workflows and seamless integration with SOLIDWORKS enable users to transition from design to toolpath programming, simulation and generating shop floor setup sheets while working inside of both parts and assemblies.

BobCAD-CAM stands out from competition by offering some of the best functionality including feed rate control, high-speed roughing, and advanced surface toolpaths, all at a highly competitive price.

### BobCAD-CAM, Inc. BobCAM for SOLIDWORKS

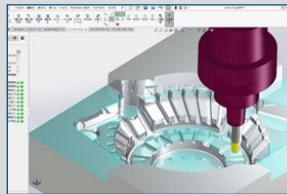

13528 Prestige Place  
Suite 102  
Tampa, FL 33635  
USA

## CERTIFIED GOLD PRODUCTS – CAM

### HCL CAMWorks

HCL CAMWorks and SOLIDWORKS CAM, developed by HCLSoftware, deliver a fully integrated CAD/CAM solution that saves time and boosts efficiency for CNC machining. SOLIDWORKS CAM offers 2.5 and 3 axis milling, and CAMWorks adds 3-5 axis mills, lathes, mill/turn, Swiss machining, wire EDM, and more.

### HCL Software CAMWorks

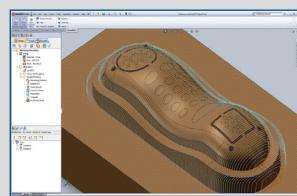

50 Kirts Boulevard, Suite A  
Troy, MI 48084  
USA

NAM: +1 480 367 0132

### OPEN MIND THE CAM FORCE

*hyperMILL*®, the integrated CAM solution for SOLIDWORKS, converts CAD designs into NC code without leaving the familiar program environment. Integrated processes with universal data models ensure secure and transparent workflows, and the familiar interface simplifies use and increases user acceptance.

### OPEN MIND Technologies AG *hyperMILL* for SOLIDWORKS

### PATHFINDER3D

SOLIDWORKS caught the eye of the store fixture manufacturing industry by filling a need for flexible top-down design in 3D while retaining the ability to use parametric design for repeat work. PathFinder3D was created to fill this gap and automate the SOLIDWORKS-to-CNC process.

### Silver Star West LLC PathFinder3D

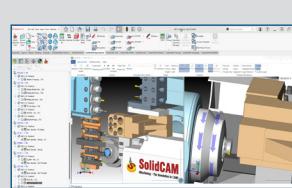

409 Evergreen Drive,

## CERTIFIED GOLD PRODUCTS – DATA INTEROPERABILITY

FormatWorks is a native SOLIDWORKS plug-in that lets you publish true MBD models—complete with semantic PMI—directly to QIF and STEP AP242, so your 3D data is both human- and machine-readable. It gives SOLIDWORKS users a clean way to export CAD-neutral files, import MBD geometry from systems like CATIA, Creo, NX, and more, and keep design, manufacturing, and quality all working from the same digital thread.

Be sure to check out CAPVIDIA's other product: FaceWorks

### CAPVIDIA FormatWorks

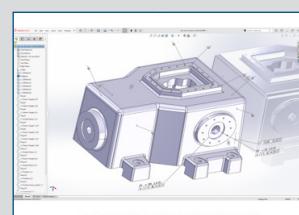

200 S Wacker Dr, Suite 3100  
Chicago, IL 60606  
USA

NAM: +1 832 280 8685

[support@capvidia.com](mailto:support@capvidia.com)  
[www.capvidia.com](http://www.capvidia.com)

The CATIA V5 to SOLIDWORKS plugin is the most popular CAD data exchange solution provided by Datakit and is certified "Gold Product". Easily import CATIA V5 files (.CATPart, .CATProduct) along with Parts, Assemblies, Custom File Properties, Features Tree and PMIs. Configurable and updated quarterly.

### Datakit CrossCad/Plg: CATIA V5 3D to SOLIDWORKS

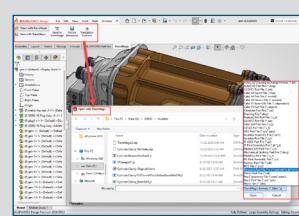

90 avenue Félix Faure

## CERTIFIED GOLD PRODUCTS – PLM INTEGRATION

### bechtle plm

Porta~X is an integration for SOLIDWORKS and SAP (S/4 HANA). It allows you to manage your SOLIDWORKS models, assemblies, and drawings directly in a SAP Content Server. It also generates SAP Bills of Materials (BOMs) directly from SOLIDWORKS assembly structures or drawings with a mouse click.

### Bechtle PLM Porta-X

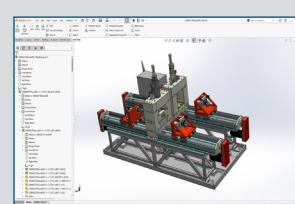

Bechtle Platz 1,  
74172 Neckarsulm  
Germany

EMEA: +49 6123 99 50-115

[info.de@bechtle-plm.com](mailto:info.de@bechtle-plm.com)  
<http://www.bechtle-plm.com>

Manage SOLIDWORKS data directly in SAP through a configurable interface that supports CAD structures, PLM objects, and all native or neutral files. Execute SAP functions from within SOLIDWORKS and access product information stored in SAP for streamlined, enterprise-wide collaboration.

### CIDEON Software & Services GmbH & Co. KG SAP PLM Integration for SOLIDWORKS

Lochhamer Schlag 11  
82166 Gräfelfing  
Germany

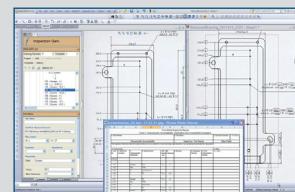

EMEA: +49 89 9090030

## CERTIFIED GOLD PRODUCTS – REVERSE ENGINEERING AND INSPECTION

Designed exclusively to support SOLIDWORKS 3D CAD software, Inspection Geni V 3.0 automates the manual inspection process and enables design changes tracking directly in SOLIDWORKS without the use of a PDM, thereby taking SOLIDWORKS software to a whole new dimension.

### Albitech Ltd. Inspection Geni

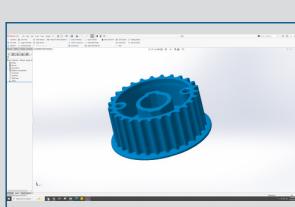

Weinberg 13,  
Kfar Saba, 46385  
Israel

EMEA: +972 5 4771 7258

## CERTIFIED GOLD PRODUCTS – REVERSE ENGINEERING AND INSPECTION

Geomagic for SOLIDWORKS enables you to import data or scan directly into SOLIDWORKS. It's ideal for users looking for a straightforward path from point cloud to complete editable SOLIDWORKS design file. Import data or scan directly into SOLIDWORKS with most 3D scanners available on the market today.

### Hexagon Geomagic for SOLIDWORKS

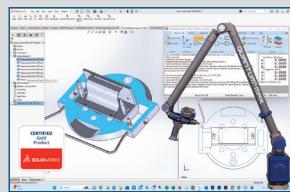

Hexagon AB, Lilla Bantorget 15, Box 3692, 103 59 Stockholm, Sweden

NAM +1 888 242 2678

## CERTIFIED GOLD PRODUCTS – SHEET METAL FABRICATION

3DQuickForm is an inverse forming simulation. High speed, accuracy, and full associativity with SOLIDWORKS make 3DQuickForm an efficient production design tool for die designers. Users can import different types of CAD data or build the die geometries in SOLIDWORKS for the forming studies.

### 3D QuickTools Ltd. 3DQuickForm

Unit V26, Flat A, 5/F., Victory Industrial Building 151-157 Wo Yi Hop Road Kwai Chung, N.T. 999077 Hong Kong, China

[www.klietsch.com/solidworks](http://www.klietsch.com/solidworks)

## CERTIFIED GOLD PRODUCTS – TOLERANCE ANALYSIS

CETOL 6 $\sigma$  is a 3D model-based tolerance analysis software that integrates directly into SOLIDWORKS to help engineers predict, visualize, and resolve variation issues before they reach production. With CETOL 6 $\sigma$ , your company will reap benefits by deploying better products, saving costs, and increasing efficiency across the enterprise.

### Sigmetrix LLC CETOL 6 $\sigma$ for SOLIDWORKS

5900 S Lake Forest Dr Suite 400  
McKinney, TX 75070  
USA

## Our **3DEXPERIENCE** platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating virtual twin experiences of the real world with our **3DEXPERIENCE** platform and applications, our customers can redefine the creation, production and life-cycle-management processes of their offer and thus have a meaningful impact to make the world more sustainable. The beauty of the Experience Economy is that it is a human-centered economy for the benefit of all – consumers, patients and citizens. Dassault Systèmes brings value to more than 300,000 customers of all sizes, in all industries, in more than 150 countries. For more information, visit <http://www.3ds.com>.
