

SOLIDWORKS

CERTIFIED PARTNER PRODUCTS 2017

Our **3DEXPERIENCE** platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3DEXPERIENCE** Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 190,000 customers of all sizes in all industries in more than 140 countries. For more information, visit www.3ds.com.

©2017 Dassault Systèmes. All rights reserved. **3DEXPERIENCE**®, the Compass icon, the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SYMULIA, GEVIA, EXALEAD, 3D VIA, 3DSVIM, BIOVIA, NETVIBES, JWE and 3DEXCITE are commercial trademarks or registered trademarks of Dassault Systèmes, a French "société au capital" (Versailles Commercial Register # B 322 306 440), or its subsidiaries in the United States and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval.

INTEGRATED. ASSOCIATIVE. CERTIFIED.

Get the power you need to finish the job right with SOLIDWORKS® Certified Partner Products. From knowledge-based engineering (KBE) and mold design software solutions to computer-aided manufacturing (CAM) tools—you'll have everything you need to get your products to market faster.

Integrated

Data export just got easier. A lot easier. With single-window integration, all the tools you need work together using the same design data. Which means you can work directly in the native SOLIDWORKS environment, instead of exporting models to a standalone product. And with our Certified Partner Products, you can take advantage of unique SOLIDWORKS capabilities like Configurations, PropertyManager, and the FeatureManager® design tree.

Associative

Like SOLIDWORKS software, Certified Partner Products are fully associative. When you make design changes, they update data automatically or warn you that additional changes are necessary. So you can be sure that your data is always in sync. Always.

Certified

Our certification team rigorously evaluates all of our Certified Partner Products, making sure they comply with SOLIDWORKS standards. You can rest assured that they will look and feel like SOLIDWORKS and work with each new SOLIDWORKS release.

We are always evaluating new solutions for our Certified Partner Products. Visit www.solidworks.com and the Partner Products area for an up-to-date listing.
